

## Etudes et réalisation de matériels et d'équipements

Montégut Arros the 27/11/2018,

Dear partners, customers, contractors, suppliers,

As you will know the agreement on protecting personal data info (RGPD) is now been applied throughout the European Union.

The same as all companies buying and selling equipment and services, Erme company disposes of a minimum information on your behalf, principally your company name, address, telephone, VAT number and contact details.

This information stays confidential and you authorize Erme to use these details for working with our partners strictly for business reasons.

ERME and the partners we work with guarantee that your details will be protected and used according to the European regulations; you have the right to access for modification or erasing your details by simply sending a letter to the general director of Erme company.

ERME has dedicated his activity for nearly 30 years to provide his customers, performing, reliable and economical solutions for agricultural, transport and aeronautical tools. Many machines and tools have been made and sold to customers who appreciate the provided service either in France or around the world.

ERME ... Made to measure solutions adapted to your needs.

Thank you very much for your partnership,

We stay available for any further information.

ERME SAS
